EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Henry Heines on October 23, 2007.

The application has been amended as follows:

Claims 9-23 have been cancelled.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose or fairly suggest a method for killing neoplastic tissue by irradiation with a wavelength of non-ionizing radiation selected to be absorbed preferentially by the lipids and proteins of specific neoplastic tissue. Nordquist et al. teach irradiation of neoplastic tissue with wavelengths selected based on an injected sensitizer. Altshuler et al. teach irradiation based on absorption by endogenous tissue elements, however, not for a wavelength of 265 nanometers nor selected based on specific types of neoplastic tissue.

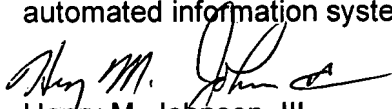

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Henry M. Johnson, III whose telephone number is (571) 272-4768. The examiner can normally be reached on Monday through Friday from 6:00 AM to 3:00 PM.

Art Unit: 3739
